GASTONIA, N. C.

Preface

We take pleasure in submitting Volume VII of the Gastonia, N. C., Directory. Gastonia has made great strides since our last directory was issued, both in population and business enterprises.

While no directory is free from errors, we feel sure that this edition of the Gastonia Directory will give general satisfaction because we know that it is far above the average directory published for a city in the same class as Gastonia. Experienced help has been used in collecting the data, and a complete new canvass was made. There may be a few omissions of names (which is generally the case with all directories), but it is not due to the fact that the territory was not fully covered by our canvassers. Unfortunately about the time we began this edition of the Gastonia Directory the city officials decided to renumber some of the business houses and residences. This somewhat delayed our work and gave us more or less trouble in getting some of the new numbers correct, but as a whole, this edition of the Gastonia Directory can be relied upon, it being more than 95% correct, which is far greater than can be said of the average city directory.

For the information of the public we wish to say that the Gastonia Directory is strictly a "Carolina Made" product; no foreign help was imported to do the work; neither was the printing done outside the state.

It has always been our policy and shall continue to be so, to patronize home industries as far as possible, and we believe that North Carolinians should as far as possible buy "Carolina Made" Articles.

Gastonia is in the center of the textile industry of North Carolina and is one of the leading manufacturing centers of the commonwealth. We shall continue to publish this directory from time to time as the demand may arise, and we venture the assertion that it will not be but a short while before Gastonia will need a directory published annually, as have several other cities in the state. Before concluding we wish to thank our patrons for their liberal support, by which this publication was made possible, and to extend our thanks to our many friends and the public in general for their aid and courteous way in which they supplied our representatives with the proper information. It is indeed a pleasure for us to publish a directory in a city where the people are so vitally interested and are willing to cooperate. This, of itself is good evidence that Gastonia is a good, live, up-to-date city and a good place in which to live and do business.

Anyone looking for a new home or a suitable location in which to locate a new business enterprise should investigate Gastonia. Gastonia has a live Chamber of Commerce which will be glad to furnish you with any facts and figures which you might desire.

(*) A star (*) is often used in most directories for various purposes. A star (*) or hand (☞) is used in the Business Department of a directory to denote a special classification or listing; sometimes in the Street Department, in front or after a number, to denote a business place; it may be used, at the option of the publisher, to denote a married or single person; it is most generally used before or after a name to denote a colored person. Its use, however, being so general, the Publishers will not assume any responsibility for errors or its wrong use.

Putting the Out-of-the-way Business on the Main Street For a Few Dollars

The business that is up-stairs in some building or off the beaten trail can overcome its location—can put itself on the Main Street of Public Attention by advertising in the City Directory.

Your advertisement entitles you to be listed in heavy type under all of the classifications of your business in the new City Directory now being compiled. This makes your business **STAND OUT.** Thousands of people consult this buyers' guide every year.

Thus, for a very small sum you can be located on

The Main Street of your City Catalog

for a whole year.

NOTE—Patronize those whose names are in large type, for they are the progressive ones and generally leaders in their line.

☞Index appears in front of special business headings only, for which an extra charge is made.

Purpose of (*) in front of name is to denote colored person or firm, but we assume no responsibility for its wrong use, errors often creep in.

Putting the Out-of-the-way Business on the Main Street For a Few Dollars

The business that is up-stairs in some building or off the beaten trail can overcome its location—can put itself on the Main Street of Public Attention by advertising in the City Directory.

Your advertisement entitles you to be listed in heavy type under all of the classifications of your business in the new City Directory now being compiled. This makes your business **STAND OUT.** Thousands of people consult this buyers' guide every year.

Thus, for a very small sum you can be located on

The Main Street of your City Catalog

for a whole year.

Giving Names of Householders and Denoting Business Places

Vol. VII THE PIEDMONT SERIES 1930

NOTE—All streets and Avenues are arranged in alphabetical order, the house numbers are arranged in numerical order with names of householder after each number.

Dash (—) before name denotes that number is wanting.

(*) Purpose of (*) in front of name is to denote colored person or firm, but we assume no responsibility for its wrong use, errors often creep in.
